NRC, FIRSTENERGY NUCLEAR OPERATING CO. MANAGERS TO DISCUSS COMPANY'S FLEET OF NUCLEAR PLANTS

Managers from the Nuclear Regulatory Commission and FirstEnergy Nuclear Operating Co. (FENOC) will meet on Tuesday, Jan. 10, to discuss FENOC's three nuclear power plants, which are located in Pennsylvania and Ohio.

It will provide NRC senior managers from the two regional offices responsible for oversight of the plants (Regions I and III) with an opportunity to discuss them simultaneously with the company's senior management.

The meeting is scheduled to begin at 9 a.m. at FENOC's Beaver Valley nuclear power plant in Shippingport, Pa., in Room 103 in the plant's Training Building, on Shippingport Road. The building is across from the plant's parking lot entrance.

Members of the public are invited to observe the meeting. Those in attendance will be able to ask questions or offer comments to NRC officials after the business portion has been concluded but before the overall session has been adjourned. The meeting notice is available on the agency's web site at: <http://www.nrc.gov/public-involve/public-meetings/index.cfm>.

Besides Beaver Valley, FENOC also owns and operates the Davis-Besse nuclear power plant, located near Oak Harbor, Ohio, and the Perry nuclear power plant, at Perry, Ohio.

Information about the NRC's assessment of performance at the respective plants is available on the agency's web site at the following addresses:

Beaver Valley 1 – http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/BV1/bv1_chart.html

Beaver Valley 2 – http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/BV2/bv2_chart.html

Davis-Besse – http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DAVI/davi_chart.html

Perry 1 – http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/PERR1/perr1_chart.html
